TONOPAH MOOSE WIN BALL GAME YESTERDAY FROM THEIR GOLDFIELD BRETHREN AFTER HARD BATTLE

From the time that the special train bearing the Moose and the Knights of Columbus and their friends rolled into the station until the whistle blew for the good folks of Goldfield to board the train for home, there was something doing every minute in Tonopah yesterday, and the visitors declared that the greatest silver-gold camp in the world had entertained them most royally.

The visitors were met at the depot by a delegation from the Moose and the Knights of Columbus and the Moose band, the lodgesmen and their good ladies marched to the Mipah hotel where rooms had been provided by the Moose for the ladies of the party.

The Goldfield ladies were given a luncheon at the Mipah while the visiting ball team was escorted to the gymnasium, where they made ready for the fray. Promptly at 3 o'clock the Moose band escorted the local team to the grounds and a large bunch of rooters bearing the handsome silver cup in their midst trailed on behind. Long before the two teams appeared on the ground, autos, wagons, carriages, buses and other vehicles were kept busy conveying the crowds to the ball grounds, and when Umpire Kelly called "play ball" all the seats were filled and the grounds were flanked by automobiles and carriages.

The game started at 3 o'clock and there was something to hold the interest of the crowd until the last man was out in the ninth inning.

The Tonopah Moose team surprised even their most ardent admirers by their work and it is conceded that the local boys have a team of good hitters, while their fielding justified the claims that were made before the game.

Goldfield started the ball rolling in the first inning by scoring and

the Goldfield rooters turned loose but Tonopah put the soft pedal on the rooters by falling on Harper and clouting the ball into every part of the lot.

When Harper was taken out of the box and "Grasshopper" Hawkins substituted the Goldfield rooters tried to stampede the local boys, but the latter were so cool and collected as the proverbial cucumber and they touched up the elongated twirler for three baggers, doubles and singles until they had secured enough so that when the game ended Tonopah had won by a score of 15 to 12.

At the conclusion of the game the spectators were invited to visit the Moose headquarters where an informal lunch was served.

At 6 o'clock the Moose band gave an open air concert in front of the Mipah and the vast throng that listened to the sweet strains applauded each number and demanded encore after encore.

In order to complete the day's entertainment Bob Govan of the Mipah hotel gave the visitors and the local public a dance in the spacious lobby of the hotel and the many couples enjoyed themselves to such an extent that the engineer of the special train was compelled to whistle many times before he could start for home.

The return game will be played in Goldfield at an early date, which will be announced later, and the Tonopah Moose are confident that at the end of the next game the handsome silver cup which is displayed in Shemanski's window will become the permanent property of the local Moose.

As stated in the Bonanza recently a team of ball players that can run down a jackrabbit must have some speed and the local boys certainly showed it yesterday.

PRESIDENTIAL ELECTORS ARE NAMED BY THE REPUBLICANS

Special to the Bonanza

RENO, July 29.—W. W. Booth of Nye county; Thomas Nelson of Humboldt county; and W. M. McGill of White Pine county, were named as presidential electors, whose names will appear on the republican primary ballot, at the state convention held here today. L. A. Gibbons presided at the convention with W. E. Pruett acting as secretary.

During the course of the session the republican national platform was adopted and it was decided to stand for the direct vote of the people for the United States senatorship.

H. V. Moorehouse of Goldfield delivered an address on the methods employed at the Chicago convention and thoroughly defended the nomination of President Taft.

The convention passed resolutions regarding the death of the late Senator Nixon, and commended Governor Oddie for his appointment of Judge Massey to fill the senatorial vacancy.

PUDDY GRIMES TO BE CANDIDATE FOR REELECTION

FILES NOMINATION PAPERS FOR
DEMOCRATIC NOMINATION
AUDITOR AND RECORDER

Puddy Grimes, who has filled the office of county auditor and recorder since 1904, when the courthouse was located at Belmont, is a candidate for the renomination at the democratic primaries. Puddy, who lost his real name when he first appeared on the ballot, is the dean of the court house, from point of service, having served three full terms and has a willingness to serve for the fourth term.

Mr. Grimes is known from one end of the county to the other and his popularity has been demonstrated by the numerous times he has been returned to office. He is a pioneer of southern Nevada, having emigrated to Tonopah during the earliest days of this camp. By occupation, he was intended to be a miner, and served his apprenticeship at the Montana workings. Later, when Tonopah was visited by the first plague in 1901, he resigned his position and devoted his time, night and day, to nursing the victims of the plague.

His work at that time won him recognition and he was presented with a neat medallion by his fellow citizens. In the coming primary campaign Mr. Grimes can be depended upon to give a good account of himself and of his work in office. His nomination papers were filed with the county clerk last week.

Manager Goodfriend will have special pictures for the occasion and this, combined with the talent which the committee will present, should fill the house to overflowing at both performances.

The Bonanza will in a day or so give the names of the teams and individuals who will appear.

At the presentation before Darrow was called. He declared Fredericks has letters and telegrams signed by Darrow and demanded the papers. This started an argument and I've come decided to hear something this afternoon. Fredericks will not take the stand until late today.

TWO SHIFTS NOW EMPLOYED AT GYPSY QUEEN

SINKING OF SHAFT SUSPENDED
AND CROSSCUTTING FOR
LEDGE IS STARTED

For the purpose of rushing work at the Gypsy Queen workings two shifts will be employed commencing tonight. Andy Canovan, who has charge of the operations, declared today that the second shift would assist in the sending of the crosscut from the 570 level in search of the vein opened up on the 450-foot level.

The vein where it was originally opened up averaged from three to five feet in width and at that point carried low-grade values. Indications point to the values increasing as depth is secured and it is believed the ledge will be encountered within 80 feet. The work of crosscutting started yesterday and will be taken up by the second shift which will start work tonight.

Negotiations are now under way for the purchasing of an air compressor from one of the Goldfield companies, and this will be installed as soon as received. The work to date has been carried out by hand drills and has been somewhat slow. From now on the development of the property will be pushed and important disclosures are expected daily.

GOLDFIELD AND TONOPAH KNIGHTS OF COLUMBUS INITIATE TWENTY-TWO MEMBERS AT YESTERDAYS SESSION

Twenty-two candidates were given the first, second and third degrees at Knights of Columbus hall yesterday. The ceremonies began at noon on the arrival of the special train from Goldfield and continued until a late hour in the evening, after which a banquet was served in the upper hall and guests and visiting members were entertained right royally. The degree work was performed by Joe Scott, Phil O'Brien and H. C. Limbrock of Los Angeles and it is needless to say the dignified ceremonial did not suffer in the demonstration.

In the morning Tonopah Council and some of the visitors who came in the previous evening attended high mass where Father Flynn spoke on the important mission and obligations of the order which he described as one of the most valuable auxiliaries of the church. He urged the members to inculcate religious fervor and national patriotism and by force of example prove to their fellow citizens that the Catholics of today were of the same stamina and fiber as the Catholics of revolutionary days who fought for the freedom of this country.

The Tonopah lodge of Moose will be given a smoker tonight at their rooms in the Butler building by one of the members who carried a bunch of the Goldfield money yesterday by betting on the home team. The lodge will meet at 8 p. m. and after the initiation ceremonies have taken place the smoker will be held and it will then be decided when the Tonopah boys will visit Goldfield to play the second game in the silver cup series.

The charter of the Moose will be closed very soon and Organizer Buchanan has during the past few days received many applications for membership.

At the banquet in the evening Frank Mannix presided as toastmaster. The hour was growing late and as the southern visitors had to leave at 11 o'clock quick work was made of the menu. Mr. Joseph Scott of Los Angeles was the first speaker. He told of the unveiling of the monument of Christopher Columbus at Washington and paid a high tribute to the adventurous and deeply religious Spaniard who settled the western coast of North America before the Puritan fathers thought of Plymouth Rock. He quoted from Joseph G. Lummis, the California historian, whom he referred to as an unprejudiced writer and non-Catholic as his authority for the statement that Catholic missionaries had assimilated the Aztec tongue and translated the Bible centuries before civilization began on the Atlantic side of the continent. He also described the magnificent universities of Brazil, Chili, Peru and Mexico, which were old before the birth of Yale and Harvard.

The other speakers were chosen from among the candidates, who gave snappy talks on the experiences of the day.

FIND BODY OF MINE ENGINEER COLD IN DEATH

REMAINS OF W. C. COOK DISCOVERED TODAY IN CABIN
BY R. B. DAVIS

W. C. Cook, an engineer, well known in Tonopah, died suddenly some time Sunday night at his room in a small cabin in the rear of the R. B. Davis residence. The body was discovered today by Dick Davis, who alarmed at the failure of Cook to appear, forced an entry into the rooms and discovered the remains. From the position of the body, it appeared that Cook was taken ill during the night and on attempting to arise from the bed, fell forward. The upper part of the body rested on the floor with the lower portion remaining on the bed. Death had evidently occurred at least 12 hours before the body was found.

The deceased leaves a wife and several children at Coalinga, Cal. He was a mine engineer by profession and had been employed at both the Belmont and Mipah Extension. An inquest will be held by Judge Atkinson, the ex-officio coroner.

Regarding the trusts it favors a personal guilt for corporation officials violating the Sherman law. It favors the direct primaries and national currency practice act. Wilson goes to Trenton tomorrow on state business. On Wednesday he may confer with the leaders.

MINER FALLS INTO THE SUMP HALIFAX SHAFT

MARK MATTHEWS HAS NARROW
ESCAPE FROM TWENTY-FIVE
FOOT FALL

Mark Matthews, a miner employed at the Halifax, met with an accident yesterday that came near having fatal results. Matthews, however, escaped with several bruises and it was his good fortune that no bones were fractured.

He was working in the shaft about 25 feet from the sump when he missed his footing and fell. The water in the sump broke the force of his fall, although he was stunned momentarily. Fellow workmen rescued Matthews from the sump and he was quickly hoisted to the surface and sent to the Miners' hospital.

Dr. McDonnell, who was summoned, examined the injured miner, and found that although no fractured bones resulted from the fall, numerous bruises appeared. Matthews will be able to be out and resume his duties at the mine in a day or two.

TEDDY TAKES DIRECT ISSUE ON TAFT STATEMENT

EVERYTHING ELSE IS NAILED
DOWN SO HE IS FORCED TO
TAKE ISSUE

OYSTER BAY, July 29.—Roosevelt took direct issue with a White House statement issued last night justifying the national committee's action on the Chicago convention protests. He declares that admitted he would vote to send the Bonanza to Texas.

He said in part: "I rise to the attempted defense that Taft does not and cannot controvert a single statement I made in my three Oyster Bay articles. I did not consider that one-third of the cases should have been rehearsed. I merely took the substance and where there was no possibility of disputing the facts. There came down if it had not been for the downright theft attributed by Taft's lieutenants would absolutely prevent Taft's nomination. If an honest organized convention would have been against Taft in over 100 majority."

Mr. Roosevelt repeated this morning from the east, where he spent the last month attending to business and military affairs.
